If you'd like, you can even bring your child along...

Ah...

I'm sorry, I believe I'll be missing it after all...

But look at how skinny he is!

I thought we could try fattening him up if he came along!

Ahh

A shame...

Of course he can't.

His daughter's still pretty young. Right?

The place is a bar too

Please don't worry.

I was always a gut eater.

Mr Momoya, that's called being a busybody..

FLIP

did try cooking once before, but...

Well

Nowadays, the lunch boxes at convienent stores take calories and nutrit onal value into account.

That's right, it's really helpful.

PFFT!

Soooooo adoooo-raable!

My daughter made a face that I had never seen before in my life when I did.

Okay.

Oh I have first period.

Well, of course...

Turned down again!

Fuaa ah...

It's only been half a year since his wife passed away.

It was just so delicious that I started crying.
CANCELED LAST MINUTE...
Exactly!
Get it?
I made a promise to my mother, but she flaked out at the last minute...
I did eat all of it by myself, though!
See, there's food here for two people, not one.
Right
...Huh?
Um, that is...
I wasn't crying because I was feeling lonely by myself or anything.
Where did she learn that...?

I know how busy she is...

It's just,

But the lunch boxes were still delicious even when I ate them by myself.

So she canceled on me.

And it did upset me.

I see...

But after I finished eating, I started thinking of those things more and more,

And like,

started crying..

ah

ALONE ...?

...I'm sorry. I already ate all of it...

Yes, alone...!!

IS IT REALLY THAT GOOD?

POOP CAME OUT?

No, no, just came running back.

Yes, everything's fine.

I mean,

You actually can't cook, right?

At camps, the way they measure the water is by doing this.

That's what you do when you cook outdoors...

You ate earlier, didn't you?

We haven't eaten for a looong time.

Thanks!!

Okay, you can use this

Maybe I'll go to the store

Maybe I'll go home

CLAY POT RICE

☆ Ingredients ☆ 3-4 servings

Yum!

360 ml rice
430 ml water (roughly 20-30% more than the amount of rice)
A pinch of sake

1. Put the washed rice and pour the water into the clay pot, cover it with a lid, and put the pot over medium heat. When the pot starts to boil over, turn down the heat to low and let it cook for 13 minutes.

POINT Adding a little sake will make it more flavorful

2. Set to high heat for 30 seconds. Kill the heat and let it simmer for 10 minutes. Remove the lid and stir the pot.

POINT Please regulate the strength of the flame and the amount of water to your liking.

Try it once you're familiar with the recipe

WASHING YOUR DELICIOUS RICE

Let's do it fast!

1. Put your rice in the strainer. Place the entire strainer in a bowl full of water. Mix the rice and then remove the strainer from the bowl.
2. After that, grind the rice without adding water. Mix it quickly, but gently.
3. Put the strainer back in the bowl with new water and mix well. Replace the water with the lid. Remove the strainer and grind the rice again. Repeat several times.
4. Once the water stops becoming muddy, the strainer should be removed from the bowl and left aside; 30 minutes during the summer, 1 hour during the winter (this is so it can absorb the water.)

When we tried cooking it at home, the pot boiled over so much that it freaked us out (it came out delicious).
